How the Dividend Plan Works

- Policyholders may enter a program at time of new business or renewal.
- Policies can have any effective date (no “common” effective date required).
- Policies are assigned annual program terms according to their effective date.
- Dividends are calculated 15 months after expiration of a program term. For instance, dividends for policies in an April 1, 2020 to March 31, 2021 program term would be calculated as of June 30, 2022.
- A dividend percentage is selected based upon loss experience and written premium.
- Dividends are not guaranteed.*

Group Prospect Considerations

- Strong underwriting fit
- Size 1,000 members minimum
- \$1 million in premium within two years
- Little overlap with existing programs
- Agency’s ability to market
- High potential for gaining new customers

IT PAYS TO BE SAFE

Policy Premium.....	\$ 10,000
– 5% discount	\$ 500 **
	\$ 9,500
Sample 10% Dividend.....	\$ 950
Final Premium	\$ 8,550

*Dividends are payable 15 months after group expiration and, as with all dividends, require approval by Accident Fund’s Board of Directors.

**IA, KS, MO, NC, TN, TX and WI do not allow for 5% up-front discount due to state filings.
